Kathleen

Have you ever needed help with fishing? I have! The person who helped me with fishing was one of my best friends... Ava. She is one of my best friends from camp. At camp she is always there for me, no matter what.

This is how she helped me. One day in fishing class at camp, I had a hard time putting the hook on my pole. Ava came over and asked me if I needed help. She told me to make a knot, throw the loop and then put the bobber on. I did as she said. Then we traveled to the river to fish. We had fun, but I caught nothing. After camp I tried what Ava taught me. Then I finally caught one, but it was very small.

She was encouraging to me to keep trying. Someday I ~~want~~ want to encourage someone, like Ava did to me.
